Filacleaner

Universal floor cleaner

What it's for

A cleaner for the routine cleaning of all types of floor, especially suitable for treated surfaces or those vulnerable to strong detergents. Filacleaner guarantees high performance on a wide range of types of floor, including treated klinker, terracotta and natural stone, treated and untreated porcelain tiles, varnished and oiled wood, single-fired ceramic tiles, resilient surfaces (PVC, rubber, linoleum), and polished treated and untreated agglomerates, marble and granite. It can also be used for the initial washing of agglomerates.

How it's used

Dilution: as required.
 Applicazione:
 For ordinary care (even of treated terracotta), dilute half a beaker of Filacleaner in 5 litres of water. Wipe a cloth wet with this solution over the floor until cleaned as required. No need to rinse. On very dirty floors or for in-depth cleaning, dilute one part Filacleaner in 10 parts water. Wipe up the dirt and rinse.

Containers

1 litre canisters in cartons of 12.
 5 litre canisters in cartons of 4.

Composition

Aqueous blend of anionic and non ionic surfactants, water-soluble solvents, alkalis, sequestering agents, wetting resin, anti-foam agent, preservative, fragrance and colouring.

Precautions

Do not use Filacleaner on textile or waxed wood floors. Contains anionic and non ionic surfactants with biodegradability over 90%.

Technical characteristics

Appearance: pale yellow liquid
 Odour: lemon fragrance
 Density: 1.005 kg/litre
 pH: 7.2 (10% solution in drinking water)

Quantity

As required.

Labelling

No risk and safety labels or warnings are required since this product is not classified as hazardous under current regulations.
