

Formula Marmo

Polish for marble surfaces

What it's for

Formula Marmo is easy and quick to apply and effective on all polished natural stone surfaces: shelves, doorsteps, windowsills, tables, bathroom tops, etc. As well as cleaning and polishing, Formula Marmo is able to remove the scale residues left by water.

Containers

250 ml cans in cartons of 12.

Composition

Natural waxes (beeswax) and synthesis waxes, soap, water soluble solvents, silicone oil, fragrance, water and de-aromatised hydrocarbon solvent.

How it's used

Dilution: do not dilute. Ready to use.

Application: Shake the container before use.

Pour the product onto a cloth then wipe it over the surface to be cleaned. Rub for a few seconds until completely dry.

Precautions

Store the container at room temperature.

Labelling

No risk and safety labels or warnings are required since this product is not classified as hazardous under current regulations.

Technical characteristics

Appearance: creamy fluid
Odour: honey fragrance
Density: 0.94 kg/litre
Solubility in water: completely soluble.

Quantity

On average 1-2 litres for 100 m².
